STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 5 OCTOBER 1983

1. Progress Report on Tasks Assigned by the DCI/DDCI:

    No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred
    During the Preceding Week:

    a. LIMS

        (1) A draft copy of the System Development Plan (SDP)
    for LIMS was reviewed and suggestions for improvement were
    forwarded to the LIMS Project Manager. The SDP contains a
    comprehensive summary of immediate and long-term plans for
    the development of LIMS. Project management, technical
    controls, and organizational responsibilities are also
    addressed in the SDP. When published, this document will
    come under Configuration Control and be updated as the LIMS
    project moves forward.

        (2) One Technical Exchange Meeting (TEM) between OL/OF
    users and BAH representatives took place during the reporting
    period. The final two meetings in this series of 13 TEMs
    will take place next week.

    b. Data Administration: Results of the PMCD survey are now
under study in terms of the effect upon the Data Administration
(DA) function. Component positions, their respective grades, and
known/proposed encumbents are being evaluated, with the near-term
objective being that of transferring and/or establishing these
positions within the DA organization. Meetings with key personnel
are under way so that the transition will be as smooth as
possible.

    c. Regulations Revisions

        The following regulations were written, reviewed,
commented upon, concurred in, or published during the
past week:

STAT

Special Travel Benefits - Concurred.

STAT

The Agency's Medical Program for Employees -
    Concurred with several recommendations.

STAT

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 26 to 30 September 1983

I.   Major Activities During the Past Week:

A. Support to OL:

MISCELLANEOUS. On Monday, 26 September 1983, a memorandum was
STAT written by [   ] Chief, Systems Branch, ADPP/OF,
describing the GAS/CONIF/ICS/PDMIS/FRS Enhancements Project.
Attached to the memorandum was a statement confirming that the
required testing was performed, recommending that the project is
ready and that initial operating capability should begin on 1
STAT October 1983 and was signed by the following: [   ]
STAT

The primary accomplishments to be gained by this project include:

    a. Automation of commitment capability.
    b. Provide an online obligation data base.
    c. Eliminate the need for the RQ/ADD procedure.
    d. Provide line item data to pay invoices and to use
       electronic receiving in FY 84.
    e. OL/CONIF will obligate for procurement activities.

For the systems: CONIF (Contract Information System), PDMIS
(Procurement Division Management Information System), and ICS
(Inventory Control System), all the GIM files (dictionaries,
procedures, menu-formats, etc.) that have been added or modified
were moved this week from the development data bases to production
STAT data bases. The moves for CONIF and PDMIS were verified by [   ]
STAT [   ] OL/SAB, and the moves for ICS were verified by
STAT [   ] OL/SAB, on Saturday, 1 October.

On Monday night, 3 October, all the new interfaces involving
CONIF, PDMIS, and ICS (TOTALS, ICSPUTPDMIS, ICSPUTCONIF, SORTIT,
PDMISGETICS, PDMISPUTCONIF, CONIFGETPDMIS, CONIFGETICS,
CONIFPUTPDMIS, CONIFPUTICS, ICSGETCONIF, PDMISGETCONIF) will be
STAT run for the first time. [   ] will spend that evening
with the DBCC/ODP personnel to ensure that these interfaces run
STAT correctly. [   ]

SECOND (Security Contractor Data System). On 28 September,
STAT   SECOND/DBM/OL, and   )L/SAB, met
STAT with   Management
Systems Development Branch, SDD/ODP, and discussed the interface of
the SECOND system with the Security Information Management System
(SIMS). A general overview of the interface was presented and an
STAT Interface Control Document was given to   for his
STAT review.

FARS (Federal Automated Requisitioning System). The coding
has been completed for the new PL/I program that will be used to
STAT create the reports for microfiche.

The program UPDTSUSP that was modified to reflect the new
interface changes between ICS and FARS, has been moved over to
production. The program will be in effect starting next week.
STAT

PDMIS (Procurement Division Management Information System).
Several changes were made to the PIUPDTE, PIAMUPD, and PIOBLUPD
procedures, as requested by the customer, for the GAS Enhancements
Project. One involved adding a DTRND (date returned) field to be
passed to CONIF. Another involved changing the format of the type
of action field when it is passed from PDMIS to CONIF.
STAT

STAT   MISCELLANEOUS.   briefed the D/L Quarterly
STAT meeting this week on the "Use of Computers Overseas."
(U)

   II.   General Items:

          None to report.

  III.   Problems:

          None to report.

   IV.   Upcoming Events:

          None to report.
